Ovo su samo neke, od velikog broja poveznica, koje postoje. Ostale, prema vlastitim sklonostima, možete potražiti sami.

Slike/prezentacije iz predavanja ekofiziologije životinja nalaze se [ovdje](#). Od prošle tj. "koronarne" godine, ostala su snimljena predavanja u mkv formatu, pa ih možete slobodno koristiti. Mislio sam ih ukloniti, ali me dosta studenata zamolilo da ih ne mičem. Stoga, neću ih uklanjati, do daljnjeg.
