

**Termini seminara iz ekofiziologije životinja** (maksimalno pet studenata po terminu):

**10.11.2022.**

**17.11.2022.**

Lina Bajić  
Iva Cahunek  
Hana Hipp  
Stella Mrmić

**01.12.2022.**

Iva Cahunek  
Tea Obranović  
Zlata Sošić  
Nina Zečević

**08.12.2022. – termin je popunjen**

Zvonimir Dadić  
Doris Janjić  
Marija Jurković  
Ljubica Matić

**15.12.2022. – termin je popunjen**

Marija Bodrožić  
Kristina Gilman  
Marko Marohnić  
Manuela Oroz  
Ivana Turk

**22.12.2022.**

Maria Bajić  
Ema Krstulović  
Mateja Miličević  
Mateja Strukar

**12.01.2023.**

Ana Jukić

**19.01.2023.**

**26.01.2023.**

**Raspored predavanja:**

11.10.2022. – Uvod u ekofiziologiju – prvi dio

18.10.2022. – Uvod u ekofiziologiju – drugi dio

25.10.2022. – Termalna fiziologija

08.11.2022. – Fiziološke prilagodbe na život u pustinjama i savanama

PRIRODOSLOVNO-MATEMATIČKI FAKULTET

**Biološki odsjek**

ZAVOD ZA ANIMALNU FIZIOLOGIJU

- 15.11.2022. – Fiziološke prilagodbe na život u polarnim područjima – prvi dio
- 29.11.2022. – Fiziološke prilagodbe na život u polarnim područjima – drugi dio
- 06.12.2022. – Hibernacija i torpor
- 13.12.2022. – Orijentacija i navigacija kod životinja
- 20.12.2022. – Funkcionalna anatomija i fiziologija kretanja
- 10.01.2023. – Fiziologija letenja
- 17.01.2023. – Fiziologija ronjenja morskih sisavaca

Ovo su samo neke, od velikog broja poveznica, koje postoje. Ostale, prema vlastitim

PRIRODOSLOVNO-MATEMATIČKI FAKULTET  
**Biološki odsjek**  
ZAVOD ZA ANIMALNU FIZIOLOGIJU

sklonostima, možete potražiti sami.

Slike/prezentacije iz predavanja ekofiziologije životinja nalaze se [ovdje](#). Od online nastave, ostala su snimljena predavanja u mkv formatu, pa ih možete slobodno koristiti. Mislio sam ih ukloniti, ali me dosta studenata zamolilo da ih ne mičem. Stoga, neću ih uklanjati, do daljnjeg.

Izv. prof. dr. sc. Zoran Tadić

Zagreb, 8. prosinac 2022.
